

Add a Search Box with Site Search 360

Site Search 360 provides a search box that can be embedded into your PageCloud site.

Add a Search Box to your Site

1. While logged into your [Site Search 360](#) account, head to the Installation page.
2. Copy the two embed codes provided by Site Search 360. Example embed codes below.
3. Head to your PageCloud page you want the search box to appear on while in edit mode.
4. Paste the embed code using CTRL+V (on Windows) or CMD+V (on a Mac)
5. Click "Save" and "View Live" to see your SiteSearch 360 embed code in action.

Example Embed codes:
