Import Blog into PageCloud

The blog import tool allows you to bring over your existing blog into PageCloud's blogging platform.

Import Blog into PageCloud

1. Log into your PageCloud account.
2. Select the website you would like to import the blog into.
3. Select the "Blog" tab from the site dashboard.
4. If this is your first time in the blog tab, select "Import a Blog". If you have previously added a blog post, you will find "Blog Import" in the left side bar of the page.
5. Click "Launch Wizard" and begin following the steps to import your blog to PageCloud.
6. The import process may take some time depending on the size of your blog. An email will be sent when the import is completed.
7. Head to the "Blog" tab from the site dashboard to see the imported blog posts.
