

How to create and delete sites

Each PageCloud subscription provides a single publishable site. When on a paid subscription you will have access to an unlimited amount of [draft sites](#)

To create a new site :

1. Head to your [Sites Dashboard](#) . If you are in the Dashboard for one of your sites, click "Sites" in the top left.
2. Click "Create a New Site" at the top right to begin the site set up process.

Publish your site

1. From your [Sites Dashboard](#) , select the site you would like to publish.
2. Click "Publish Site" in the upper right corner of the page.
3. Select "Publish Site".
4. You may have to upgrade your account to include an additional published website.
5. Your site is now published and live on the web!

To delete a site :

1. From your [Sites Dashboard](#) , select the site you would like to delete.
2. Click "Site Settings" and scroll down to "Delete Website".
3. Click "Delete Website".
4. You will be asked to type the name of the website and confirm you would like to permanently delete it.

Deleting a published website will give you a new available website to publish within your account. If you would like to end the subscription for the website you have deleted, reach out to support. support@pagecloud.com
