

# Include a Twitter Tweet button on your page

The Tweet button is a small button displayed on your website to help viewers easily share your content on Twitter.

You can add a tweet button right into your PageCloud by first heading to [Twitter.com](https://twitter.com) and copying the tweet embed code.

Next, head over to your PageCloud page and paste the embedded code using CMD+V (on Mac) or CTRL+V (on Windows)

Click Save and View live to begin tweeting!
