Adding Google Adwords to your Page

Google AdWords allows you to insert advertisements on your page.

To Add Google AdWords to your Page

1. Head to your Google AdWords account.
2. Copy the embed copy they provide.
3. Go back to your PageCloud site.
4. Paste the embed code directly on your page in editing mode.
5. A box will appear on the bottom center of the page letting you know an external script has been added.
6. Click "Save" to save your changes.

Want to verify your code? Use Google Tag Assistant Browser Extension, available as a Google Chrome extension here.
