

Including Google Analytics to your Website

Google Analytics allows you to better understand your site's traffic and visitors. **Please note: These steps are compatible with G4A.**

Add Google Analytics Site Wide

1. Copy your Google Analytics account ID using CMD+C (on Mac) or CTRL+C (on Windows).
2. From your Sites Dashboard, Select the site you'd like to manage.
3. Click the **Integrations** under Tools in the left toolbar in your dashboard
4. Paste the ID into the Google Analytics box.
5. Click "ADD" to have your Google Analytics code added to all pages on your site.

Your Google Analytics ID or G4A ID will appear in the form of: UA-XXXXX-X or G-XXXXXXXXXX

Add Google Analytics to a Single Page

1. Copy your Google Analytics account ID using CMD+C (on Mac) or CTRL+C (on Windows).
2. While in edit mode, head to the page you would like to track.
3. Paste the Google Analytics account ID onto your page using CMD+V (on Mac) or CTRL+V (on Windows).
4. Pagecloud adds the Google Analytics tracking code to the page.

5. Click "Save" to save the code to your page.
