Include Maps with Google Maps

Google Maps offers a free mapping service that lets you show off a specific location, or directions.

Add Google Maps to your Page

1. Head to Google Maps and find the map or directions you would like to add to your page.
2. Copy the url for the map or directions using the CMD+C (on Mac) or CTRL+C (on Windows) shortcut.
3. Head to the PageCloud page you would like the map to appear on.
4. Paste the url directly onto your page using CMD+V (on Mac) or CTRL+v (on Windows) Shortcut.
5. The map widget will appear on the page as an embedded object.
6. Click "Save" to save your changes to the page.
7. Click "View Live" to see the map or directions on your page.
