

Full width - Stretch across a Column

An Image or object within a Section

Stretch an image or object across the full browser width

1. Select the image or object you would like to extend the full width of the browser.
2. Head to the Style tab in the [Editing Menu](#).
3. Click the Full width toggle.
4. Click "Save" to save your changes to the page.
5. Click "View Live" to see the changes on your page.

Objects set to full width can be re-position vertically but not horizontally. This is because they already span the entire width of the page.
