

Placing a Wufoo Form on your page

Wufoo is a form builder that focuses on the simplicity of building up and sharing your form. You can choose from a number of different templates, analyze all the results, and even set up custom rules for logic flows in how your form gets answered.

Add Wufoo Forms to your Page

1. Head to your [Wufoo](#) account.
 2. Create your custom form.
 3. Copy embed code provided using the CMD+C (on Mac) or CTRL+C (on Windows) shortcut.
 4. Head to the PageCloud page you would like the form to appear on.
 5. Paste the embed code directly onto your page using CMD+V (on Mac) or CTRL+v (on Windows) Shortcut.
 6. The form embed code may appear as an empty wireframe. Don't worry, when viewed live it will display as expected.
 7. Click "Save" to save your changes to the page.
 8. Click "View Live" to see the form on your page.
