

Embed Different Tools with POWr.io

POWr.io offers a number of different integrations, most of which are available as iFrame embed codes. These integrations cover a huge range of functionality.

Add POWr.io iFrames to your Page

1. Head to your [POWr.io](#) account.
2. Select the integration you'd like to use and customize it within your POWr.io account.
3. Copy the iFrame embed code using the CMD+C (on Mac) or CTRL+C (on Windows) shortcut.
4. Head to your PageCloud page you would like the integration to appear on.
5. Paste the embed code directly onto your page using the CMD+V (on Mac) or CTRL+V (on Windows) shortcut.
6. Click "Save" to save the page.
7. Click "View Live" to see the embed code in action.

Add POWr.io HTML to your Website

1. Head to POWr.io and set up or log into your account.
 2. Select the integration you'd like use and customize it using their tools.
 3. Copy the HTML code using the CMD+C (on Mac) or CTRL+C (on Windows) shortcut.
 4. Head to your PageCloud site and paste the code using the CMD+V (on Mac) or CTRL+V (on Windows) shortcut.
 5. Click "Save" to save the page.
 6. Click "View Live" to see the embed code in action.
