Allow Search Engines to Crawl and Index your Site

You can toggle on or off the ability of search engines to crawl and index your website

Allow Search Engines to Crawl and Index your Site

1. From your Sites Dashboard, Select the site you would like to manage.
2. Click the "Site Settings" tab along the top of the page.
3. Click the "SEO" section on the left.
4. Toggle "Visible to Search Engines" ON or OFF enable or prevent search engines from crawling and indexing your site.

Visible to Search Engines is set to ON by default
