

Add Lead Capture Widgets with Poptin

Poptin is a lead capture platform that allows you to show different popups, overlays, forms, and social widgets.

Embed a Poptin Widget

1. While logged into your [Poptin](#) account, head to the "Code for Installation" tab in the top left of the page.
 2. Copy the embed code provided Poptin using the CMD+C (on a Mac) or CTRL+C (on Windows) keyboard shortcut.
 3. Head to your PageCloud page where you want the Poptin widget to appear.
 4. Paste the embed code directly onto the page using the CMD+V (on a Mac) or CTRL+V (on Windows) keyboard shortcut.
 5. Click "Save" and "View Live" to see your Poptin widget in action.
