

Add Shutterstock Images

Shutterstock is a premium stock image marketplace that offers high quality images for affordable prices.

You can add Shutterstock images directly in the PageCloud editor.

Add Shutterstock Images

1. While editing a page, open the left side bar.
2. Select the images tab, then select the stock tab. If you are on a paid account you should see the option to view shutterstock results below the search field.
3. You can search for an image using the search bar at the top of the premium tab.
4. Drag an image onto your site to include a preview of the image.
5. To Purchase the image, Click "Save" to open up the purchasing window.
6. Agree to the [Image Usage Guidelines](#) and click the "Purchase" to finalize the sale.
7. Click "Save" and "View Live" to see your beautiful new images.

You can also select "Save Without Purchasing" to save your work. A Placeholder image will appear on your live site.

Images are non-refundable and cannot be exchanged once purchased.

Shutterstock Image Use Guidelines

- Images cannot be used as a trademark for a business.
- Images used cannot portray a person in a way that may be offensive, including:

- a) in ads for dating services;
 - b) in connection with political endorsements;
 - c) with defamatory, unlawful, offensive or immoral content; and
 - d) as suffering from, or being treated for, a physical or mental ailment.
- You may only use the image on your Pagecloud site, and not with other websites or advertising services.
