

# Book your Rental Properties with Lodgify

Lodgify allows you to easily accept bookings for your vacation rental property.

## Embed Lodgify Rental Property Booking

1. Login to your [Lodgify](#) account.
  2. Head to your Settings and then select the widgets.
  3. Lodgify provides different widgets you can include on your PageCloud site.
  4. After customizing the widget, copy it to your clipboard.
  5. Paste the widget into a plain text editor (we use sublime)
  6. You will need to add  
at the beginning of the embed code and  
at the end to have it appear as an embedded object on your PageCloud page.  
See screen shot below.
  7. With the changes made, head to your PageCloud page you would like to use Lodgify.
  8. Paste the embed code using the CMD+V (on Mac) or CTRL+V (on Windows) shortcut.
  9. Click "Save" and view live to see your Lodgify booking widget in action.
