

Share a draft page or website

You can share a draft page or entire website with someone you trust in order to get feedback on your work.

Share a draft page

1. From your Sites Dashboard, select the draft site you would like to share.
2. Click the **Shares** tab under Tools in the left toolbar of your dashboard.
3. Click "Create Share Link"
4. Select the draft page you would like to share

Now you can copy the link to your shared preview.

Share Options:

- **Enable links to other pages:** Select this if you would like the person to view other pages linked on the draft page.
- **Invite team members via email:** Enter an email to send your shared preview
- **Delete share:** Click the 3 dots on your share to delete the share
