

Beta Program

PageCloud continuously works on new functionality. If you wanted early access to test out this functionality while it is still in early development you can join our Beta program.

The Beta program uses early development versions of future features. This helps gain insight, feedback, and log bugs related to new features before official releases. If you are not comfortable working with early development features or want a more stable editor, Do not join the Beta Program.

Join Beta Program

1. Click your name in the upper right corner of Your Site's Dashboard.
2. Select Profile.
3. Scroll down to the Beta Program Section.
4. Toggle on to join the beta program.

Leave Beta Program

1. Click your name in the upper right corner of Your Sites Dashboard.
2. Select Profile.
3. Scroll down to the Beta Program Section.
4. Toggle off to leave the beta program.

If you leave the Beta program while using a Beta feature, this feature may no longer work or cause unexpected behavior on your page.
