Duplicate PageCloud website

You may want to duplicate your full website to begin

Duplicate your PageCloud Website

1. Log into your PageCloud account.
2. From Your Sites dashboard select the dropdown arrow to the right of the Edit button.
3. Select Duplicate Site.
4. Site duplication will begin.
5. When site duplication is complete, a green notice will appear in the bottom centre of your Your Sites dashboard.

Larger sites may take a longer time to fully duplicate.

Images are stored on the original site. If an image is removed from the original site, it will no longer appear on the duplicated site.
