Add your Favourite Social Media Widgets with Tagembed

Tagembed is a social media aggregator that allows you to easily embed widgets from your favourite social media platforms (Facebook, Instagram Twiter ect.) right into your Pagecloud Editor. Tagembed is an all-in-one solution to help increase engagement and traffic to your site.

Embed Any Social Media Widget With Tagembed

1. Head to your Tagembed account and create the widget you'd like to embed.
2. Click 'My Widgets' tab on the left side of your Tagembed account.
3. Select 'Embed Widget' for the widget you've create.
4. Choose Pagecloud as your platform.
5. Click 'Get Code' then copy the code provided.
6. Head back to your Pagecloud Editor and paste the code directly onto the page or drag the Tagembed icon from the left sidebar under 'Apps' onto the page and paste the code in the field provided.

You can customize the style, color, and layout of your widgets right within Tagembed.com.
